

Vision Prayer for 2012

I have a vision where all people are at peace, fed and housed,
every child is loved and educated to develop their talents, where
the heart is more important than the head and wisdom is
revered over riches.

In this world justice, equality and fairness rule.

Nature is honoured, so the waters flow pure and clear and the
air is fresh and clean. Plants and trees are nurtured and all
animals are respected and treated with kindness. Happiness
and laughter prevail.

And humans walk hand in hand with angels.

Thank you for the love, understanding, wisdom, courage and
humility to do my part to spread the light.

May all the world ascend.

So be it.

This prayer was channelled by Ascended Master Melchizedek, who communicated the following message. At 11.11 on 21st December 2012 there is a cosmic moment or pause at the end of the 26,000 year outbreath of Brahma. In this time anything can happen. Miracles and wonders beyond imaging might take place and this is why the ancients could not see beyond this point. The whole world needs to start building up the energy for that moment. The most effective way to prepare people would be to offer a prayer followed by an 11 minute ohm. This is to be followed by a one minute silence during the cosmic moment.

Remember that the Law of Prayer is, give thanks for what you ask for with faith that it is already granted. First state your request or vision, then express gratitude, knowing that it is already granted.

If we start to do this in our groups or even alone, by the time 2012 arrives there will be a huge build up of light. The 21st December is the Friday before Christmas, when time for spiritual practice for most people is limited. However, 12 minutes is possible for everyone and this is suggested as a programme.

Programme for 21st December 2012

10.59	Vision prayer
11.00	11 minute ohm
11.11	1 minute silence during the course moment
